ADA Compliant 

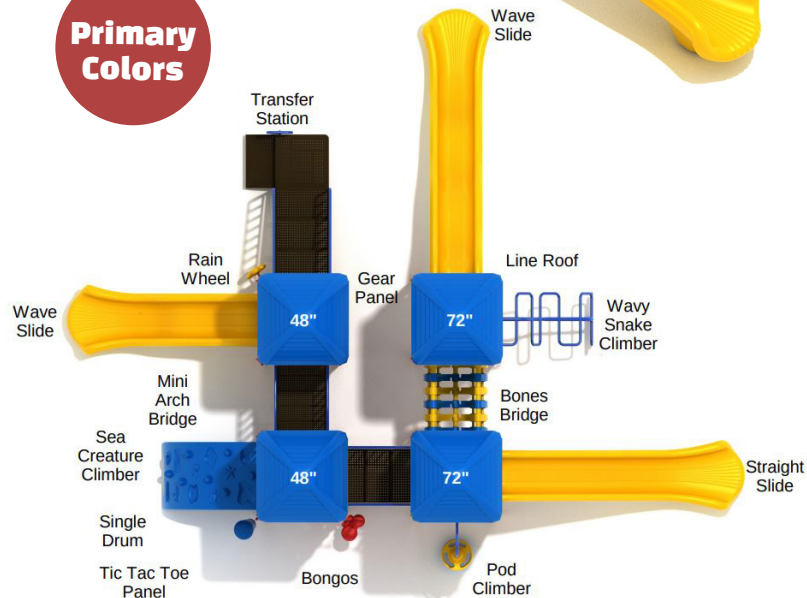

Elevated: 10 components

Ground Level: 3 components

Primary Colors

Neutral Colors

MEETS NATIONAL STANDARDS FOR:

ASTM F1487-17

CPSC GUIDELINES #325

Product Description

This large and dynamic play set can accommodate nearly 50 children, making it an asset for parks and schools that receive a lot of foot traffic. This playground set is an imaginative fixture full of different games and activities. It's the perfect mixture of imaginative play pieces with practical games and climbing structures. Fun Features abound in the Brook's Towers Playground Set. Brook's Towers features a collection of unique activities, many of which hew to a rugged theme, like the Snake Climber, Bones Bridge, and Sea Creature Climber.

No doubt children will feel as though they've been dropped into an interactive storybook as they run across the structure's bridges and zip down the play set's three slides: two Wave Slides and a Straight Slide. Bridges include a Mini Arch Bridge and a Bones Bridge. And the structure also features ADA-compliant, ground-level activities like a set of bongos, a Single Drum, a Rain Wheel, and a transfer station so children of all ability levels can join in the fun. The structure also boasts an interactive Tic-Tac-Toe Panel for some brain-strain enjoyment.
