**Fall Height:** 36"

**Post Diameter:** 3.5"

**ADA Compliant** ✓

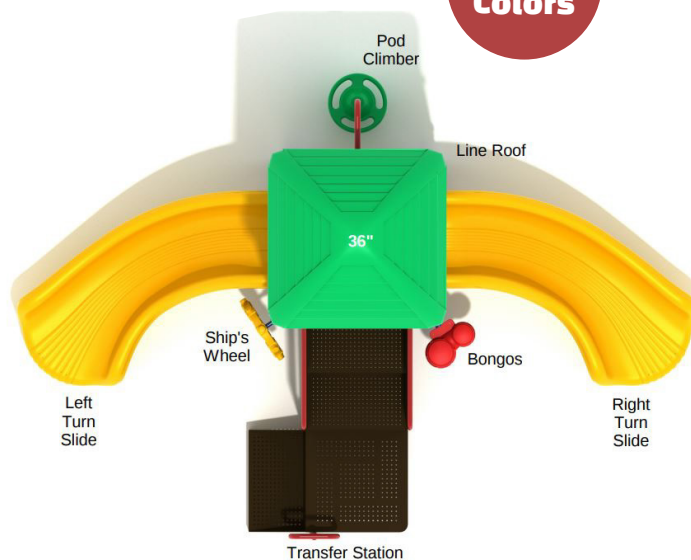

**Elevated:** 3 components

**Ground Level:** 2 components

**Primary Colors**

**Neutral Colors**

MEETS NATIONAL STANDARDS FOR:

ASTM F1487-17

CPSC GUIDELINES #325

## Product Description

A perfect compact outdoor play center for smaller playgrounds or daycare centers with younger children, the Powell's Bay activity center has so much to see and do.

Children can climb aboard via the Transfer Station and make their way to the upper platform the easy way, or they can choose a more adventurous path up the Pod Climber which features circular disks. Once at the top the only decision they have to make is which slide to go down as the Powell's Bay structure has both a Left Turn Slide and a Right Turn Slide that children will love to race down for a fast exit. The Ship's Wheel adds a tactile element to play as well as imagination because the structure could definitely be imagined as a sailing ship that needs a captain at the helm to sail the high-seas. There's also a set of Bongos underneath the structure just begging to be banged rhythmically to add a sense of adventure to playtime.
