

Tidewater Club

Product Specifications

Model number: COMM-1TIDEC

Child Capacity: 28 to 32 children

Age Range: 5 to 12 years

Safety Zone: 32' x 30' 5"

Fall Height: 84"

Post Diameter: 3.5"

ADA Compliant 

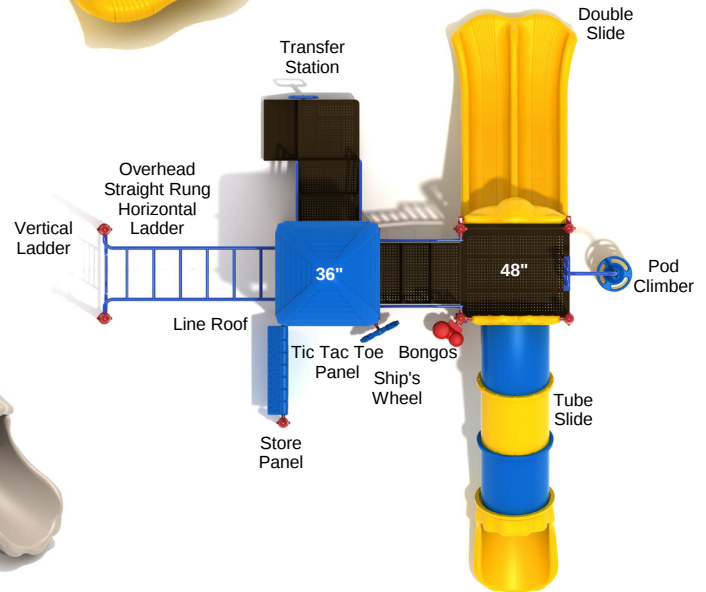

Elevated: 5 components

Ground Level: 4 components

Primary Colors

Neutral Colors

MEETS NATIONAL STANDARDS FOR:

 **ASTM F1487-17**

 **CPSC GUIDELINES #325**

Product Description

Children will love the Tidewater Club play system and they'll always find something to do whether playing on their own or with friends. Watch them skilfully scale the play equipment either by using the Transfer Station for an easy entrance ideal for younger children, or taking the more adventurous route up the platforms of the Pod Climber. They can even swing themselves onto the upper platforms by climbing the Vertical Ladder then making their way like a monkey across the Overhead Straight Rung Horizontal Ladder. Once at the top children can choose from two slides, a Double Slide which is perfect for racing or the covered Tube Slide to provide an enclosed sliding experience. Smaller hands can be busy underneath the structure while other children play above as there are Bongos to bang and a Ship's Wheel to spin around dizzily. There's also a Store Panel to spark creativity and children will love to sell things to each other through the window opening. On the upper level children can engage in a popular game with the Tic Tac Toe Panel underneath the Line Roof which provides cover from the rain and sun.
